PROFESSIONAL EXPERIENCE

Technology Analyst

Nov 2013 – Present

Federal Reserve Board, Washington, DC

Utilize Agile methodologies to improve productivity, efficiency, and enhance cross-department collaboration and communication. Analyze, conceptualize, and develop. Focus on reducing customer frustration and increasing customer productivity. Develop custom workflows and intuitive SharePoint sites with HTML, CSS, JavaScript, and Python. Collaborate with multiple stakeholders across four divisions to design, develop, maintain, and administer SharePoint sites for multiple initiatives, including Diversity & Inclusion and information security.

- Company-wide recognition for ability to multi-task flawlessly; often given additional projects to complete along with major team projects.

Information Systems Analyst

Aug 2011 - Nov 2013

KForce Government Solutions, Washington, DC

Analyzed, assessed, and assisted customers with hardware and software related issues. Effectively translated technical information to users with varying degrees of technical knowledge.

- Division Award of Excellence recipient, breaking records as one of the first division contractors to be awarded.

Network Support Specialist

Aug 2010 - Mar 2011

QIAGEN Shared Services, Germantown, MD

Provided expert Level 1 and Level 2 inbound help desk assistance. Fielded incoming phone calls and emails. Led new end-user training initiatives. Ensured total new hardware, software, and technology integrations.
